Get to know us

75 years of heritage & pioneering built on commitment, precision & the robustness of brass.

Why being 75 yrs old matters.

Dr. Samir Aref
Chairman // Ahram Group

It makes me very proud when I look back at all that has been achieved in the **past 75 years**, from learning to growth.

When we started Ahram, we were barely able to make 10 locks a day. Today we produce more than **10 million locks a year**.

We went from 1 to more than **1,000 models**.

From **simple mechanical locks** to a wide **range of door accessories, key solutions to smart access technology**.

From 1 market to **over 27 markets**. You can find **our locks in every continent**.

We started with 3 workers, today we are **over 1,200 people strong**.

We went from a humble small workshop to **3 manufacturing plants** with **over 400 state of-the-art machines**.

And today, we feel, we are just getting started.

Our Journey

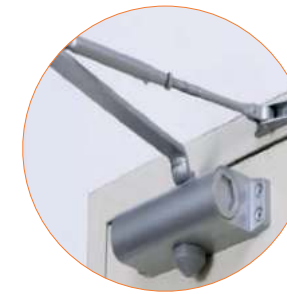

From 4,000 BC to 2020 AD

The first locks were innovated by the ancient Egyptians around 4,000 BC.

*The power of
solid metal X technology*

We've been innovating reliable locking solutions since 1945.

Future Ready⁷⁵

For *75 yrs* we made
places safe by securing their
point of entry, the door.

***Today, we are committed to
the transformation of all
spaces, to make all
Egyptians 'feel safe' in them.***

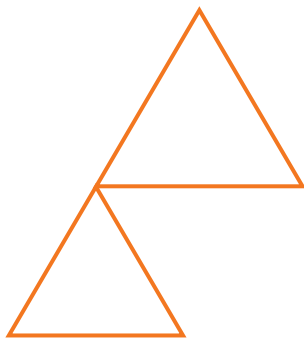

Safe to ***explore & express***, to
create & innovate, to ***thrive*** &
have the ***drive to grow***.

It's no longer about making
places secure, it's about
making people feel safe
so they can **achieve their**
biggest potential.

Future Ready⁷⁵

Our pioneering
ancestors, our bold
founders & the evolving
world around us inspire
us to continue the
upward growth journey.
